PROFESSIONAL SUMMARY

Motivated and enthusiastic B.Tech 3rd-year Computer Science student with a strong foundation in programming, data structures, and web development. Passionate about applying academic knowledge to real-world projects while continuously learning emerging technologies. Actively seeking internships and project opportunities to gain hands-on experience, enhance technical expertise, and contribute to innovative software solutions.

TECHNICAL SKILLS

Languages : Java, HTML, CSS, MySql , SQL , Python , C

EDUCATION

Nabajyoti High School	**Matriculation** | Percentage : 78	*January 2020 - Aprilr-2021*
Gyana Vikash Higher Secondary School	**12th** | Percentage : 67	*August 2021 - May 2023*
Giet University	B.Tech CGPA : 7.8	*August 2023 -May-2027*

PROJECTS

Project 1 / *Library Management System* /Skills Developed – Python, Frontend Development.
  - Developed a Python-based application to manage library operations including book issuance, returns, and catalog management.
  - Streamlined record-keeping and improved efficiency in tracking books and user activity.

Project 2 / *Crop Recommendation System* / Skills Developed – Python, Machine Learning, Frontend Development
  - Built an intelligent system that recommends crops based on soil, weather, and environmental data.
  - Implemented machine learning models for accurate predictions and designed a user-friendly frontend for easy interaction.

Project 3 | Brain Tumor Detection System| Skills Developed – Python, Deep Learning, HTML
  - Developed a deep learning-based application to detect brain tumors from MRI scans.
  - Integrated Python backend with HTML frontend for seamless user interaction and real-time tumor prediction.

INTERNSHIP

Project / Boutique Management System/ Skill Developed - Python, MySQL
  - Developed a comprehensive boutique management system to streamline inventory, sales, and customer management using Python and MySQL.
  - Automated order processing, stock tracking, and billing, improving operational efficiency and accuracy.

CERTIFICATION

  - JAVA Programming from NPTEL
  - Python Programming from NPTEL
  - Frontend Development by Internshala
  - GenAI Powered Data Analytics Job Simulation from Forage
  - JAVA (Basic) from HackerRank
  - Python Programming with MySQL
  - Web Development Fundamentals from IBM
